Dear Member/ Parent/ Guardian,

As the 2016 year begins we welcome you all to the new Camogie season and invite you to register as a member of your club.

Please note

- that due to County board registration limitations/charges and due to new IT system it is imperative that all members are advised to the club by the required date (**15th March 2016**)
- The Club gets charged €30 each time when registering with the county board, it is an automated system and it cannot be avoided, so we want to register everyone in one go to minimise charges.
- Any existing member (a member in 2015) that comes after the required date **WILL NOT** be allowed to play as the club cannot get them registered on the Camogie system and this is outside the control of the club.
- Any new member (was not a member in 2015) that comes after the required date will end up paying the additional €30 registration fee

Membership fees are as follows:

- €30 for players 8 and under
- €50 for players 9 and over
- €100 maximum for family with more than 2 players
- €10 for non players - entitles this member to vote at AGM

Membership must be paid in full by 15th March 2016, with a minimum of €25 down payment by 2nd March in order for players to be registered. For insurance purposes, players who are registered and fully paid up by 15th March 2015 may only participate in training or playing of games

Enclosed please find a membership form, (or download and fill in this form from the website at the following link <http://www.athleathan.com/camogie1.html>), and we would be grateful if you could complete both sides fully. Please return completed form with fees to any of the above or the trainers on or before registration night which will take place on Wednesday 2nd March from 17.45 to 18.45 in the clubhouse.

Training schedules, fixtures, events and news will be placed on the website, Facebook and Clubify. Text alerts will only be sent if there are changes to the training schedule, events or fixtures, there will be no more weekly text reminders for training. Current training schedules are as follows:
